27<sup>th</sup> April, 2005

**Re: Request for National Phase Entry for PCT/AU2004/001026**

Dear Commissioner for Patents,

Further to the amendments described in the letter dated 19<sup>th</sup> April, 2005, would also like to make some additional amendments to the application. The reason for the amendments is to fix some mistakes in the numbering of figures in page 7d, and to clarify that the manufacture of the invention is not limited to metal.

The description is amended as follows:

On page 3a, line 12, replace "top member" with "lever member"

On page 3a, line 16, insert

"FIG. 33 shows an exploded view of embodiment of the invention where the base member is folded to have height, and the tongue is partially covered"

On page 3a, line 18, insert

"FIG. 34 shows an exploded view of the embodiment of the invention where the tongue extends from the side member, and the tongue is partially covered."

On page 7d, line 16, replace "base member 90" with "base member 91"

On page 7d, line 18, replace "tongue 89" with "tongue 88"

On page 7d, line 23, replace "groove 80" with "groove 89"

On page 7d, line 25, replace "tongue 89 contains a flange 98" with "tongue 88 contains a flange 94"

On page 7d, line 28, replace "top member" with "lever member"

On page 7d, line 28-29, replace "sheet metal" with "material"

On page 7d, line 30, replace "sheet metal" with "material"

On page 7d, line 31, replace "sheet metal" with "material"

On page 7d, line 32, replace "sheet metal" with "material"

Insert page 7e after page 7d.

The drawing is amended as follows:

Added FIG. 33 and FIG. 34 in a new drawing sheet 19.

I have enclosed amended pages 3a, 7d, and 7e and the new drawing sheet 19.

Yours sincerely,

Louis Pan
